

## CUMULATIVE INDEX

### Volume 25, Numbers 1-4, 1982

- Abdominal circumference, and fetal weight, 205-207, 214-217, 741-742
- ABO incompatibility  
and hemolytic disease of newborn, 333-339  
and Rh sensitization, 249
- Abortions, Rh-immune globulin in, 274, 284, 289
- Abscess of breast  
lactational, 382-384  
subareolar, recurring, 385
- Acupuncture in labor, effects of, 199
- Adrenalectomy, in breast cancer, 429, 437
- $\beta$ -Adrenergic agonists, in preterm labor, 131-133, 142
- Adriamycin, in endometrial cancer, 95-96
- Age  
as factor in endometrial cancer, 7-8, 53, 54, 58  
gestational. *See* Gestational age  
maternal, and fetal chromosome disorders, 638-640  
paternal, and fetal chromosome disorders, 642-643
- Alcohol use  
and infertility in males, 464, 525, 530  
maternal, and fetal breathing movements, 798  
as therapy in preterm labor, 130-131
- Alkylating agents, and infertility in males, 465, 529
- Aminogluthethimide, in breast cancer, 438
- Aminophylline in labor, effects of, 200
- Amniocentesis  
affecting fetal movements, 726  
in chromosome abnormalities, 638-643  
in diabetes, 778-779  
equivocal findings in, 638  
for fetal maturity testing, 773-783  
at elective delivery, 781  
at premature delivery, 781-782  
in hemoglobinopathies, 779  
in hypertensive disease, 779  
in intrauterine growth retardation, 780  
in Mendelian and polygenic disorders, 643-648  
in multiple gestation, 637  
in postterm pregnancy, 780-781  
Rh-immune globulin with, 285-286, 289  
in Rh isoimmunization, 779-780  
risks in third trimester, 782-783  
safety of, 636  
technique of, 635-636  
ultrasonography with, 637
- Amniotic fluid  
bilirubin levels in Rh sensitization, 295-300, 304  
creatinine in, 776-777  
embolism from, 221-222  
lecithin/sphingomyelin ratio in, 774-775  
lipid-laden cells in, 777  
phosphatidylglycerol in, 775  
shake test of, 775-776  
surfactant determinations in, 773-776  
ultrasound determination of volume, 743
- Amniotomy, in latent phase of labor, 112
- Analgesia in labor, effects of drugs in, 143, 194-200
- Androgens  
and breast cancer development, 390  
serum levels in menopause, 22  
therapy with  
in endocrine problems of menopause, 28  
low-dose, in infertility in males, 491-492  
in varicocele, 517
- Androstenedione conversion to estrone  
in endometrial cancer, 11  
in menopause, 21-22
- Anencephaly, prenatal diagnosis of, 649-650  
ultrasound in, 747, 754, 758
- Anesthesia in labor  
and effects of inhalation agents, 195-196  
epidural, for pain relief, 143, 197-198

## CUMULATIVE INDEX

- Anovulation  
and endometrial cancer, 10-11  
and endometrial hyperplasia, 63-64
- Antenatal diagnosis. *See* Prenatal diagnosis
- Antibodies  
in cytomegalovirus infection, 566  
maternal, to paternal histocompatibility antigens, 550-551  
to sperm, 539-540  
in viral infections, 547-548
- Antidepressants, and infertility in males, 527
- Antihypertensive agents, and infertility in males, 528-529
- Antimetabolites, in Rh sensitization, 315-316
- Arginine therapy, in infertility in males, 492
- Aspiration smears, endocervical, in endometrial cancer, 51
- Ataxia telangiectasia, prenatal diagnosis of, 646
- Atropine in labor, effects of, 196
- Azathioprine, in Rh sensitization, 315-316
- Barbiturates in labor, effects of, 199
- Beta-sympathomimetic agents, in preterm labor, 131-133, 142
- Bilirubin in amniotic fluid, in Rh sensitization, 295-300, 304
- Biopsy  
of breast  
in nonpalpable lesions, 398  
in palpable lesions, 396  
testicular, in varicocele, 511-512
- Biparietal diameter, fetal, 740-741, 744  
weight related to, 204-205, 207, 214-217
- Bladder  
delayed function after vaginal surgery, 874-875  
extrophy with vaginal prolapse, 908  
paravesical space, 815  
prevesical space, 815  
vesicocervical and vesicovaginal space, 815-817
- Blood pressure, estrogen affecting, 33
- Blood transfusions  
intrauterine, 303-311  
Rh-incompatible, 272
- Bloom's syndrome, prenatal diagnosis of, 646
- Bone density, menopause affecting, 24
- Breast  
anatomy of, 353-356  
anomalies of, 357  
benign neoplasms of, 374-381  
cancer of  
adjuvant chemotherapy in, 430-431, 433-434  
aminoglutethimide in, 438  
combination chemotherapy in, 439-440  
determination of recurrence in, 434-435  
endocrine therapy in, 429, 437-439  
epidemiology of, 387-392  
estrogen receptors in, 429, 435  
estrogen role in, 32-33  
external prostheses in, 452-453  
family and social issues in, 453  
and fibrocystic disease, 368, 392  
free intervals in, 438-439  
mammographic detection of, 393-399  
mastectomy in, 428-429  
metastatic, medical management of, 433-441  
and pregnancy, 452  
preoperative evaluation in, 427-428  
primary treatment of, 425-431  
psychosocial issues in, 449-454  
radiation therapy in, 429-430  
single metastases of, 437  
staging of, 428  
strategies for treatment of recurrences in, 440-441  
tamoxifen in, 429, 438  
terminal phase in, 453  
thermography in, 405-407  
ultrasonic detection of, 417-419, 422  
cultural attitudes toward, 447-448  
cystosarcoma phyllodes of, 376-377  
ultrasonic detection of, 416  
embryology of, 356-357  
fat necrosis of, 381-382  
fibroadenoma of, 374-376  
ultrasonic detection of, 416, 421  
fibrocystic disease of, 365-370. *See also* Fibrocystic disease of breast  
granular cell tumors of, 381  
granulomatous disease of, 385  
inflammations of, 381-385  
lactational mastitis of, 382-384  
lipomas of, 380-381  
lymphatics of, 356  
mammary duct ectasia, 384-385  
mammography of, 393-399  
Mondor's disease of, 382  
nerve supply of, 355  
papilloma of  
intraductal, 377-380  
multiple, 380  
physical examination of, 360-362  
reconstruction of, 443-446, 453  
candidates for, 443-444  
follow-up in, 446  
nipple and areola in, 445  
opposite breast in, 445-446  
realities of, 444-445  
timing of, 444  
recurring subareolar abscess of, 385  
review questions on, 455-456  
self-examination of, 362-363  
thermography of, 401-407  
tuberculosis of, 385  
vascular supply of, 355
- Breast-feeding  
and hepatitis transmission, 581  
psychosocial issues in, 448-449
- Breathing movements, fetal, 787-800
- Breech delivery, 144, 150-154

## CUMULATIVE INDEX

- and assessment of fetal weight, 204  
x-ray pelvimetry in, 162-163  
Brow presentation of fetus, 147-148
- Caffeine therapy, in infertility in males, 492
- Calcium  
intracellular, and uterine activity, 124  
serum levels of  
estrogen affecting, 25  
oophorectomy affecting, 25
- Caput succedaneum, from vacuum extraction, 168, 171
- Carbon dioxide levels, and fetal breathing movements, 796
- Carcinoma  
of breast. *See* Breast, cancer of  
of endometrium. *See* Endometrium, cancer of
- Cardiotocography, nonstressed, 689-703
- Cardiovascular system  
estrogen affecting, 26, 27, 33  
menopause affecting, 26
- Cephalopelvic disproportion, x-ray pelvimetry in, 157-163
- Cervical mucus  
penetration by sperm, tests for, 478-479  
sperm survival in, 487, 488
- Cervicographic analysis of labor, 116, 138-140, 193
- Cervix uteri  
cerclage in preterm labor, 142  
conization of, 849-860  
lacerations in parturition, 226-228  
smears from, in endometrial cancer, 51
- Cesarean section  
in breech delivery, indications for, 153  
in hepatitis of pregnancy, 581  
and labor in subsequent pregnancies, 143-144
- Chemotherapy  
as adjuvant therapy in breast cancer, 430-431, 433-434  
combination, in breast cancer, 439-440  
in endometrial cancer, 93-98  
combinations of agents in, 96-98  
single-agent, 95-96  
and infertility in males, 465, 529
- Chickenpox in pregnancy, 605-609
- Chlamydia*, and infertility in males, 467, 477
- Chlordecone, and infertility in males, 465
- Chlordiazepoxide in labor, effects of, 195
- Chloroprocaine in labor, effects of, 197
- Cholelithiasis, estrogen role in, 34
- Chorionic gonadotropin therapy  
in infertility in males, 491  
in varicocele, 517
- Chromosome abnormalities  
amniocentesis in diagnosis of, 638-643  
and infertility in males, 475, 496-497
- Cimetidine, and male sexual function, 530
- Cisplatin, in endometrial cancer, 96
- Clindinium bromide, impotence from, 529
- Clofibrate, and infertility in males, 530
- Clomiphene  
in infertility in males, 490-491  
in varicocele, 517
- Clonidine, and infertility in males, 528
- Colchicine, and infertility in males, 465
- Colporrhaphy, retrorectal levatorplasty with, 939-946
- Colton blood group, and hemolytic disease of newborn, 327
- Congenital abnormalities  
affecting estrogen assay in pregnancy, 668  
of breast, 357  
prenatal diagnosis of. *See* Prenatal diagnosis  
screening for, ultrasound in, 747-749  
vaginal surgery for, 883-890
- Conization, cervical, 849-860  
compared with tissue-destroying methods, 853-854  
complete removal of lesions in, 857-858  
complications of, 859  
as diagnostic method, 852-853  
histology of cone specimens in, 856-857  
hysterectomy compared with, 853  
incomplete removal of lesions in, 858  
indications for, 849-854  
in pregnancy, 859-860  
repeated, 858-859  
technique of, 854-856  
as therapeutic measure, 853
- Connective tissue, pelvic, in vaginal surgery, 811-820  
loose tissue, 815-817  
matrix subsections of, 812-815
- Contraceptives, oral  
affecting breast thermography, 404  
affecting fibrocystic disease of breast, 367, 369
- Contractions, uterine, 124-125, 177-186  
in stress test, 707-716  
after nonstress fetal heart rate test, 697-698
- Coronary artery disease, and effects of estrogen, 26, 27
- Corticosteroid therapy  
hyperglycemia from, 133  
in infertility in males, 491  
in Rh sensitization, 314-315
- Creatinine, in amniotic fluid, 776-777
- Cryptorchidism, infertility in, 466
- Cushing's syndrome, and infertility in males, 476
- Cyclophosphamide  
in endometrial cancer, 95  
and infertility in males, 529
- Cyclopropane in labor, effects of, 195-196
- Cystic fibrosis  
azoospermia in, 465  
prenatal diagnosis of, 645-646
- Cystic hyperplasia of endometrium, 41
- Cystosarcoma phyllodes, 376-377  
ultrasonic detection of, 416
- Cysts of breast, benign, ultrasonic detection of, 414-415, 421
- Cytogenetic studies, antenatal, indications for, 638-643
- Cytology, in endometrial cancer, 51-53
- Cytomegalovirus infection in pregnancy, 563-575

## CUMULATIVE INDEX

- Cytomegalovirus infection in pregnancy (*continued*)  
 clinical features of, 565-566  
 epidemiology of, 564-565  
 immune response to, 549, 550  
 intrauterine transmission of, 567-570  
 natural history of, 567-573  
 practical considerations in, 574-575  
 prevention of, 573-574, 621-622  
 transmission to infant, 572-573  
 virologic events in, 570-571
- Danazol  
 affecting breast thermography, 404  
 in fibrocystic disease of breast, 369, 370
- DDT, and infertility in males, 465
- Delivery  
 of placenta, 219-220  
 vacuum extractor for, 167-174
- Desensitization, oral, in Rh sensitization, 317-318
- Diabetes  
 and endometrial cancer, 14  
 and infertility in males, 465  
 in pregnancy  
 amniocentesis in, 778-779  
 estrogen assay in, 663-665  
 fetal movements in, 724-725  
 and phosphatidylglycerol in amniotic fluid, 775  
 placental lactogen levels in, 676
- Diazepam in labor, effects of, 195
- Diazoxide in labor, 200  
 tocolytic effects of, 133
- Dicyclomine hydrochloride, impotence from, 529
- Diego blood group, and hemolytic disease of newborn,  
 326
- Diethylstilbestrol, and infertility in males, 465
- Digoxin, and uterine activity, 200
- Diverticulum, suburethral, 831-837
- Doppler stethoscope use, in varicocele, 509
- Down's syndrome  
 and maternal age, 638-639  
 and paternal age, 642-643
- Drug use  
 and infertility in males, 464-465, 525-530  
 in labor, effects of, 189-200  
 inhalation anesthetic agents, 195-196  
 narcotic analgesics, 194-195  
 paralytic agents, 196  
 regional anesthetic agents, 197-199  
 tranquilizers, 195  
 maternal, and fetal breathing movements, 798
- Duffy blood group, and hemolytic disease of newborn,  
 324
- Dynein defect, in sperm, 498
- Dystocia, 103
- Ectasia, mammary duct, 384-385
- Ectopic pregnancy, Rh-immune globulin in, 284, 289
- Embolism, amniotic fluid, 221-222
- Encephalocele, ultrasonic diagnosis of, 758
- Endocrine disorders  
 and infertility in males, 483-492  
 in menopause, 19-34  
 risks of therapy in, 29-34  
 treatment of, 27-29
- Endometrium  
 cancer of  
 age factors in, 7-8, 53-54, 58  
 chemotherapy in, 93-98  
 compared to precancerous hyperplasia, 45-46  
 cytologic approaches in, 51-53  
 detection of, 49-59  
 in asymptomatic women, 53-57  
 in symptomatic women, 50-53  
 and diabetes, 14  
 diagnostic techniques in, 77-78  
 epidemiology of, 5-10  
 estrogen production in, 10-11  
 and estrogen use, 9, 11-14, 19-20, 29-31, 46, 58  
 etiology of, 10-15  
 geographic distribution of, 6-7  
 histopathology of, 9-10  
 hormonal therapy in, 93-95  
 hyperplasia as factor in, 39-43, 58-59, 63-65  
 and hypertension, 15  
 instruments for endometrial sampling in, 50-51  
 management after postoperative diagnosis of, 91  
 and metaplasia, 44  
 obesity as factor in, 14, 58  
 polyps with, 46-47  
 precursors of, 39-47  
 progestins in, 68-73  
 prognostic factors in, 75-77  
 racial factors in, 8-9  
 receptor analysis in, 89, 94-95  
 recurrent, surgery in, 91  
 review questions on, 101  
 screening for, 50  
 staging of, 76, 78-79, 81-84  
 surgery in, 81-91. *See also* Hysterectomy, in  
 endometrial cancer  
 survival rates in, 9  
 treatment of, 67-73  
 hyperplasia of, 39-43  
 atypical secretory, 43  
 and cancer incidence, 63-65  
 compared to grade 1 adenocarcinoma, 45-46  
 complex forms of, 41-43  
 cystic, 41  
 estrogen role in, 46  
 progestins in, 67-73  
 review questions on, 101  
 treatment of, 67-73  
 metaplasia of, 44  
 polyps of, precancerous, 46-47  
 sampling procedures for, 50-57  
 complications of, 55  
 effectiveness of, 55  
 interpretation of, 55-56

## CUMULATIVE INDEX

- Enterovirus infections, prevention of, 625
- Epididymal defect, in varicocele, 507
- Epididymitis, and infertility in males, 465
- Epididymovasostomy, 538-539
- Epidural anesthesia, for pain relief in labor, 143, 197-198
- Episiotomy, 229-230  
complications of, 230
- Ergonovine, in uterine atony, 223
- Erythroblastosis fetalis. *See* Isoimmunization in pregnancy
- Estrogens  
affecting thermography of breast, 404  
assays during pregnancy, 659-670  
congenital abnormalities affecting, 668  
in diabetes, 663-665  
and fetal activity, 730  
in hypertensive disorders, 665-666  
interfering factors in, 662  
interpretation of, 662  
in intestinal diseases, 668  
in intrauterine growth retardation, 666-667  
laboratory reliability in, 661-662  
in multiple gestation, 668  
in postterm pregnancy, 662-663  
in pyelonephritis, 668  
in Rh isoimmunization, 667-668  
urinary or serum specimens in, 661  
usefulness of, 668-670  
and breast cancer development, 390-391  
and infertility in males, 465  
metabolism in maternal-placental-fetal unit, 659-660  
postmenopausal levels of, 20-22  
production in endometrial cancer, 10-11  
receptors for  
in breast cancer, 429, 435  
in endometrial cancer, 89, 95  
role in fibrocystic disease of breast, 367, 369  
therapy with  
in atrophic vaginitis, 26  
and breast cancer, 32-33  
calcium levels affected by, 25  
cardiovascular effects of, 26, 27, 33  
contraindications for, 28  
in endocrine problems of menopause, 27-28  
and endometrial cancer, 9, 11-14, 19-20, 29-31, 46, 58  
and endometrial hyperplasia, 46  
and gallstone incidence, 34  
and glucose tolerance tests, 33  
in hot flashes with menopause, 26  
hypertension from, 33  
as mental tonic, 27  
in osteoporosis, 25, 26-27  
and thromboembolic disease, 33  
vitamin D levels affected by, 26
- Ethanol therapy, in preterm labor, 130-131
- Ether anesthesia in labor, effects of, 195
- Face presentation of fetus, 146-147
- Fanconi's anemia, prenatal diagnosis of, 646
- Fat necrosis of breast, 381-382
- Fenoterol, in preterm labor, 132
- Fertility disorders. *See* Infertility in males
- Fetoplacental unit, immunology of, 549-551
- $\alpha$ -Fetoprotein  
in amniotic fluid, in neural tube defects, 650  
in maternal serum, elevated, 650
- Fetoscopy, 649
- Fetus  
abdominal circumference of, 205-206, 207, 214-217, 741-742  
biophysical profile of, 743  
biparietal diameter of, 740-741, 744  
paired, 738-739  
single, before 26 weeks, 737-738  
weight related to, 204-205, 207, 214-217  
breathing movements of, 787-800  
alcohol affecting, 798  
and body movements, 727  
clinical implications of, 799-800  
drugs affecting, 798  
gestational age affecting, 796  
maternal blood gases affecting, 796-798  
maternal meals and glucose levels affecting, 794-795  
measurements of, 789-794  
nicotine affecting, 798  
in parturition, 798-799  
physiology in animals, 787-789  
time of day affecting, 795-796  
ultrasonography of, 789-794  
cardiac physiology in, 691-692  
contraction stress test of, 707-716  
after nonstress heart rate test, 697-698  
atypical patterns in, 714-715  
baseline heart rate pattern in, 714  
clinical applications of, 715-716  
negative results in, 712-713  
positive results in, 713  
procedures in, 710-712  
suspicious tests in, 713  
crown-rump length measurements in, 736  
femur length in, 739-740  
growth retardation of. *See* Growth retardation, intrauterine  
head-abdomen ratio in, 742  
malpresentations of, 144, 145-154  
monitoring of heart rate in  
antepartum, 710-715  
body movements in, 730  
intrapartum, 108-109, 140, 707-710  
nonstress testing in, 689-703  
movements of, 719-731  
activity cycles in, 696, 727-729  
amniocentesis affecting, 726  
and breathing movements, 727  
clinical use of, 729-730

## CUMULATIVE INDEX

- Fetus, movements of (*continued*)
- daily changes in, 724
  - diurnal variations in, 724
  - electromagnetic recordings of, 721
  - external stimuli affecting, 725-727
  - factors affecting, 723-725
  - gestational age affecting, 723-724
  - and heart rate changes, 727
  - and heart rate monitoring, 730
  - hypoxia affecting, 725
  - light affecting, 726
  - maternal assessment of, 720
  - meals and glucose affecting, 724-725
  - medical conditions affecting, 725
  - recording techniques for, 720-722
  - sound affecting, 725-726
  - touch and pressure affecting, 726
  - types of, 723
  - ultrasonic recordings of, 721-722

   preoperative radiation with, 84, 86  
   and prior therapy with progestins, 68-70  
   radical procedure in, 89-90  
   in stage I, 84-90  
   in stage II, 90-91  
   in stages III and IV, 91  
   technique in, 87-88  
   vaginal approach in, 89  
   wound closure in, 88-89  
   vaginal, 863-867  
     complications of, 869-880  
     in endometrial cancer, 89  
     Schauta procedure in, 913-936
- Hysteroscopy, in endometrial cancer, 77-78
- Immune serum globulin  
 hepatitis B, 581-582  
 measles, 625  
 rubella, 592
- Immunization  
 cytomegalovirus, 622  
 hepatitis B, 581-582, 623  
 influenza, 602, 617, 624  
 measles, 624-625  
 mumps, 616  
 poliomyelitis, 616, 625  
 in pregnancy, 611-617  
   complications of, 612-613  
   history of, 611  
   rationale of, 611-612  
   risk factors in, 613  
   types of vaccines in, 612  
 rabies, 615-616  
 rubella, 591-592, 614-615, 619-620  
   inadvertent, during pregnancy, 592-593, 614  
 smallpox, 615  
 varicella, 623  
 yellow fever, 617
- Immunology  
 antibodies to sperm, 539-540  
 and host response to viral infection, 545-551  
 and infertility in males, 477-479
- Immunosuppression, in Rh sensitization, 314-316
- Incontinence, stress, pubococcygeus muscle transplant in, 839-847
- Indomethacin, in preterm labor, 131
- Infections of breast, lactational, 382-384
- Infertility in males  
 and alcohol use, 464, 525, 530  
 arginine in, 492  
 caffeine in, 492  
 chorionic gonadotropin in, 491  
 chromosome abnormalities in, 475, 496-497  
 clomiphene in, 490-491  
 diseases related to, 465, 476-477  
 treatment of, 477

## CUMULATIVE INDEX

- Infertility in males (*continued*)  
 drug-induced, 465, 525-530  
 endocrine problems in, 483-492  
 endocrine tests in, 467-468  
 etiology of, 463-466, 474-477  
 genetic defects in, 495-499  
 in germinal cell aplasia, 498  
 glucocorticoids in, 491  
 in gonadotropin deficiency, isolated, 498  
 gonadotropin-releasing hormone in, 491  
 in hypogonadotropic hypogonadism, 475-476  
 in immotile cilia syndrome, 498  
 immunologic tests in, 477-479  
 kallikrein in, 492  
 in Kallman's syndrome, 497  
 in Klinefelter's syndrome, 496-497  
 low-dose androgen in, 491-492  
 and marijuana use, 464-465, 527, 530  
 menopausal gonadotropin in, 491  
 mesterolone in, 491  
 physical examination in, 466-468  
 reanastomosis of vas deferens in, 533-540  
 in Reifstein's syndrome, 497  
 and relative fertility of partner, 485-487  
 review questions on, 541-542  
 in Rosewater's syndrome, 498  
 scrotal temperature in, 464  
 selection of men for therapy in, 487-490  
 semen analysis in, 468-474  
 in sex reversal syndrome, 497  
 sexual practices affecting, 465  
 stress factors in, 464  
 testicular disease with  
   primary, 483-484  
   secondary, 484-485  
 testosterone suppression and rebound in, 490  
 in translocations of chromosomes, 497  
 treatment of, 490-492  
 urinalysis in, 467  
 varicocele in, 501-519  
   detection of, 466-467  
   ligation of, 489-490  
 in vasa deferentia aplasia, 498  
 vitamin C in, 492  
 vitamin E in, 492  
 in Y chromosome abnormalities, 497
- Influenza, 599-602  
 etiology and epidemiology of, 599-600  
 immunization in, 602, 617, 624  
 in pregnancy, 600-601  
   congenital malformations from, 601-602  
   management of, 601  
   prevention of, 624
- Inhalation anesthetic agents in labor, effects of, 195-196
- Isaacs aspirator, for endometrial sampling, 52
- Isoimmunization  
 ABO incompatibility in, 333-339  
   compared to Rh incompatibility, 338  
   diagnosis of, 336  
   fetal antigens in, 335  
   laboratory findings in, 335-336  
   management of, 336-338  
   maternal antibodies in, 334  
 amniotic fluid bilirubin in, 295-300, 304  
 antenatal, mechanisms in, 286  
 antepartum sensitization in, 249-250  
 antibody titers in, 293-294  
 antimetabolites in, 315-316  
 corticosteroids in, 314-315  
 desensitization in, oral, 317-318  
 Diego blood group in, 326  
 Duffy blood group in, 324  
 genetic predisposition to, 250  
 hemolysis mechanisms in, 250-251  
 hydrops fetalis in, 251-252  
 immunosuppressive drugs in, 314-316  
 intrauterine transfusions in, 303-311  
 irregular antibodies in, 321-329  
 Kell blood group in, 323-324  
 kernicterus in, 251  
 Kidd blood group in, 324-325  
 Lewis blood group in, 323  
 Lutheran blood group in, 325-326  
 MNS blood group in, 325  
 P blood group in, 326  
 pathophysiology of, 243-253  
 plasmapheresis in, 316-317  
 private antigens in, 327  
 promethazine hydrochloride in, 314  
 prophylactic immunosuppression  
   in abortions, 274, 284, 289  
   in amniocentesis, 285-286, 289  
   antepartum, 286-289  
   antigen blockade in, 258-259  
   antigen deviation and clearance of red cells in,  
     256-257  
   blood bank data on, 272  
   central inhibition in, 259-264  
   in Connecticut, 269  
   in early pregnancy, 284-285  
   in ectopic pregnancy, 284, 289  
   estimated frequency of, 272-274  
   failures of, 279  
   in fetomaternal hemorrhage, 285  
   in hydatidiform molar pregnancy, 284  
   in Illinois, 269-270  
   intravenous Rh-immune globulin in, 341-346  
   in late pregnancy, 285-286  
   literature review of, 268-269  
   in Massachusetts, 270-272  
   postpartum, 289-290  
   preparations available for, 283-284  
   specificity of, 257-258  
 public antigens in, 326-327  
 review questions on, 349-350
- Rh antigens in, 244-246  
 chemistry of, 246-247  
 and expression of D antigen, 248

## CUMULATIVE INDEX

- Rh incompatibility  
 amniocentesis in, 779-780  
 compared with ABO incompatibility, 338  
 estriol excretion in, 667-668  
 placental lactogen levels in, 676  
 transfusion-related, 272  
 in transplacental bleeding, 249  
   Rh-immune globulin in, 285  
   tests for detection of, 277-281  
 and ultrasound scanning for fetal condition, 300-301  
 Xg blood group in, 326
- Iso propamide iodide, impotence from, 529
- Kallikrein  
 affecting sperm motility, 470  
 as therapy in infertility in males, 492
- Kallman's syndrome, and infertility in males, 475, 497
- Kartagener's syndrome, immotile cilia of sperm in, 498
- Kell blood group, and hemolytic disease of newborn, 323-324
- Kernicterus, 251
- Kidd blood group, and hemolytic disease of newborn, 324-325
- Kidney disease, and infertility in males, 465
- Klinefelter's syndrome, 496-497  
 infertility in, 484
- Labor  
 abnormal, 103  
   and perinatal mortality, 105-109  
 acupuncture in, 199  
 ambulation affecting, 120  
 cervicographic analysis of, 116, 138-140, 193  
 and complications of immediate puerperium, 219-230  
 delivery of placenta in, 219-220  
 drugs in, effects of, 189-200  
 fetal breathing movements in, 798-799  
 and fetal weight assessment with ultrasound, 203-218  
 hypertonic and hypotonic dysfunction in, 116-117  
 induction of, 117-120, 140-141  
 latent phase of, management of, 111-113  
 malpresentations in, 144, 145-154  
 management in Great Britain, 137-144  
 manometric analysis of, 116  
 monitoring in, 108-109, 140, 707-710  
 oxytocin infusions in, 117-119, 141  
   in latent phase, 112  
 pain relief in, 143  
   effects of drugs in, 194-200  
 and planned delivery, 141  
 preterm, 123-134, 141-143  
   bedrest in, 129  
   beta-sympathomimetic agents in, 131-133, 142  
   cervical cerclage in, 142  
   contraindications to tocolytic therapy in, 128  
   definition of, 126-127  
   ethanol in, 130-131  
   fluid load in, 129  
   magnesium sulfate in, 129  
   phosphodiesterase inhibitors in, 133  
   predisposing factors in, 125-126  
   prostaglandin synthetase inhibitors in, 131  
   treatment of, 128-134  
 previous cesarean section affecting, 143-144  
 primary dysfunctional, 116  
   management of, 120-121  
 prostaglandins for induction of, 119-120, 141  
 review questions on, 233-234  
 secondary arrest of, 116  
   management of, 121-122  
 uterine contractions in, 124-125, 177-186. *See also*  
   Uterus, contractions of  
   vacuum extractor for delivery in, 167-174  
   x-ray pelvimetry in, 157-163
- Lacerations of cervix uteri, in parturition, 226-228
- Lactation  
 mastitis in, 382-384  
 thermography of breast in, 404
- Lactogen, placental, 673-678
- Lecithin/sphingomyelin ratio, in amniotic fluid, 774-775
- Legal issues, in prenatal diagnosis of disorders, 653-654
- Levatorplasty, retrorectal, with colporrhaphy, 939-946
- Lewis blood group, and hemolytic disease of newborn, 323
- Leydig cells, in varicocele, 506-507
- Lidocaine in labor, effects of, 197
- Lipomas, of breast, 380-381
- Luteinizing hormone levels  
 in infertility in males, 467-468  
 in menopause, 22-23  
 relation to sperm count, 489
- Lutheran blood group, and hemolytic disease of newborn, 325-326
- Lymphocytes, in immune response to viral infections, 547
- Mackenrodt ligament, 813
- Macrophage activity, in viral infections, 546, 548
- Magnesium sulfate in labor, 199  
 in preterm labor, 129

 breech, 144, 150-154  
 brow, 147-148  
 compound, 150  
 face, 146-147  
 shoulder, 148-149  
 transverse or oblique lie in, 148-149  
 vacuum extractor in, 170  
 vertex-breech, in twin pregnancy, 204
- Mammary duct ectasia, 384-385
- Mammography, 393-399  
 indications for, 395  
 in minimal breast cancer, 398  
 in multiple masses, 397  
 in nonpalpable lesions, 397-398  
 in palpable lesions, 395-397

## CUMULATIVE INDEX

- parenchymal patterns in, 398  
 radiation exposure in, 393-394  
 reliability of, 398-399  
 in screening for breast cancer, 395  
 in solitary mass, 395-397
- Manometric analysis of labor, 116
- Marijuana use, and infertility in males, 464-465, 527, 530
- Marsupialization, in suburethral diverticulum, 836
- Mastectomy, 428-429  
 adaptation to, 451  
 and phantom breast syndrome, 451-452  
 and Reach to Recovery, 451, 453  
 reconstruction of breast after, 443-446, 453  
 and sexual rehabilitation, 444, 453
- Mastitis, lactational, 382-384
- Measles, prevention of, 624-625
- Medroxyprogesterone, and infertility in males, 530
- Menopausal gonadotropin therapy, in infertility in males, 491
- Menopause  
 androgen levels in, 22  
 cardiovascular changes in, 26  
 endocrine problems in, 19-34  
   androgen therapy in, 28  
   progesterin therapy in, 28  
   risks of therapy in, 29-34  
   treatment of, 27-29  
 endometrial smears in, 55  
 estrogen levels in, 20-22  
 hot flashes in, 23  
 manifestations of, 23-26  
 osteoporosis in, 24-26  
 ovaries in, 20  
 parathyroid hormone levels in, 25  
 pituitary-hypothalamus function in, 22-23  
 and risk of breast cancer, 389  
 and therapy in breast cancer, 436  
 and thermograms of breast, 404  
 uterine changes in, 24  
 vaginal changes in, 23
- Meperidine in labor, 143, 194
- 6-Mercaptopurine, in Rh sensitization, 315-316
- Mesterolone, in infertility in males, 491
- Metabolic disorders, inherited, prenatal diagnosis of, 643-645
- Metaplasia, endometrial, 44
- Methadone, and infertility in males, 465
- Methyldopa, and infertility in males, 528
- Metronidazole, and male sexual function, 530
- Microcephaly, ultrasound diagnosis of, 748
- Mi-Mark Helix, for endometrial sampling, 52
- MNS blood group, and hemolytic disease of newborn, 325
- Molar pregnancy, Rh-immune globulin in, 284
- Mondor's disease of breast, 382
- Monitoring of fetus during labor, 108-109, 140, 707-710
- Mononucleosis, infectious, and infertility in males, 465
- Mortality, perinatal  
   in breech deliveries, 151-152  
   relation to abnormal labor, 105-109
- Morules, endometrial, 44
- Mosaicism, prenatal detection of, 638
- Multiple gestation  
 amniocentesis in, 637  
 estrogen assays in, 668  
 placental lactogen levels in, 676  
 and selective birth of normal twin, 770  
 ultrasound in, 637, 745-747  
 vertex-breech presentation in, 204
- Mumps  
 and infertility in males, 465  
 vaccine for, 616
- Muscle relaxants in labor, effects of, 196
- Mycoplasma, and infertility in males, 467, 476-477
- Narcotics use  
 for analgesia in labor, effects of, 194-195  
 and infertility in males, 465, 527
- Necrosis, fat, of breast, 381-382
- Neural tube defects, prenatal diagnosis of, 649-650
- Nifedipine, in preterm labor, 134
- Nitrofurans, and infertility in males, 465
- Nitrous oxide in labor, effects of, 195
- Obesity, and endometrial cancer, 14, 58
- Omphalocele, ultrasound diagnosis of, 759
- Oophorectomy  
 affecting calcium levels, 25  
 in breast cancer, 429, 437
- Osteoporosis, postmenopausal, 24-26  
 estrogen therapy in, 25, 26-27  
 treatment of, 28-29
- Ovaries, menopause affecting, 20
- Ovulation, absence of
